Recommended Content:

- **Educator Development Playlist**
- **Course: Flipping the Classroom**
- **Course: Gamification of Learning**
- **Webinar: *Beyond the Classroom Walls* by Laurie Buriss**

How does Lynda.com support your development?

Develop yourself

- Find the latest updated to the technology you use everyday
- Keep track of your professional development hours
- Learn to your advantage by using different feature to enhance your learning style
- Earn certificates & post them to your own LinkedIn profile

Develop your classroom

- Flip the classroom with courses from Lynda.com or other training resources
- Report on student progress and celebrate “power learners”
- Assign playlists to classes or individuals for customized learning
- Run mini challenges to boost student engagement

FLIPPED FOCUS

20%

KNOWLEDGE is absorbed

PASSIVE LEARNING

Time is focused on showing the students material for the first time. When students are presented content in class they retain less than 80% of the knowledge.

"ALWAYS ON" CONTENT

Students can listen to podcasts, watch videos, or complete interactive activities to learn the course materials.

WHY?

Students come to class with prior understanding of the material & can engage in discussions using academic vocabulary.

REINFORCE LEARNING

Emphasize the learning material with in-class discussions, group activities, or even games.

Faculty: Content To Check Out

Course: *Training Tips* (new!)

https://www.lynda.com/Education-Elearning-tutorials/Training-Tips-Weekly/587664-2.html

- Each week, we offer a new and actionable tip for creating high-quality instructional materials on a budget.

Course: *Teacher Tech Tips*

https://www.lynda.com/Educational-Technology-tutorials/Teacher-Tech-Tips/373783-2.html

- A weekly series highlighting educational technologies, with a focus on teacher effectiveness and learner achievement

Learning Paths >

Fostering Collaboration

Teams are increasingly relied upon as the primary means for getting work done in an organization. And the best work comes from teams who can collaborate effectively. This path helps managers and employees learn the key skills required for effective collaboration.

Learn how to establish the appropriate roles and environment for team success.

Develop listening, trust-building, and decision-making skills to promote successful team communication.

Manage meetings and difficult conversations, whether your team is colocated or remote.
