

Department Representative Committee (DRC)
Graduate Student Association
West Chester University of Pennsylvania

The DRC was created during the 2014-2015 academic year with the goal of increasing communication across the West Chester University graduate community and sharing information with each other in a more effective way. We are excited to build upon and improve this program so we can all work together to enhance the experience of graduate students!

Each department chooses one student department representative who will serve as the eyes, ears, and mouthpiece for their program and classmates. Each semester the DRC will meet at least once, where each representative and the GSA Executive Board will work together to share news, information, ideas, and suggestions for change/improvement. Additionally, GSA will be offering each Department Representative \$200 a semester to plan an event for their department.
