As you **explore careers**, it can be helpful to take note of certain information relating to each career that you are considering. Complete the following information for 3-5 of the careers that are of interest to you:

Name of Career:

What do people in this job do?

Where do these people work? Who might they work with?

What knowledge, skills, and abilities are suggested?

What education and training is required?

What is an average salary?

What is the predicted job outlook?

What are some related careers?

What interests you most about this career?

What concerns do you have about this career?

Who do you know that works in a similar career?

Who else could you talk to and where else could you look to learn more about this career?
