

## Lilah Saber, Class of 2018

The YES program has been the foundation to me discovering the power I have to organize, advocate, and change the communities I am in in order to create a more equitable society for all. I plan to be a community organizer after graduating so I can use and teach the skills that this program has taught me elsewhere.

\*Lilah is now a community organizer at POWER, a faith-based organization which represents congregations and faith leaders throughout Southeastern and Central Pennsylvania.\*
