

don't just take notes and memorize history

DO HISTORY!!!

HISTORY 474: Religion in America

Celtic cross in Maureen McGovern's kitchen window: Karin Gedge

MWF 11-11:50 AM MAIN 300

We will be making history, creating an interactive map that documents Chester County's religious history and landscape while putting LOCAL history in a NATIONAL context.

If you're curious about the diversity of religion in our region and the nation, like to take photos, want to make a difference in an authentic history project, enjoy debating substantive issues, please see Dr. Karin Gedge for details!

This digital history project augments the *Documenting Diversity: Religious Perspectives in Oral History* archive in FHG Library. The project will also be featured in the renovation of the Chester County Historical Society's planned renovation of their permanent exhibition.
