

13TH ANNUAL
LATIN@Xo
Communities Conference
WEST CHESTER UNIVERSITY

Building Bridges/Construyendo Puentes

**2021 THEME:
AFRO-LATINX AND
CARIBBEAN IDENTITIES**

CALL FOR PRESENTATIONS

In 2021 the LLC is holding a hybrid event, with one day of virtual presentations on September 29th and a second day of in-person celebrations, on September 30th.

Each year, our interdisciplinary conference provides a creative space to enhance the understanding of Latina/o/x issues, contributions, and cultures. We pride ourselves in serving as a link between academia and local communities, institutions and organizations

This year's theme focuses on celebrating Afro-Latinx and Caribbean identities, bringing forth the potential of diversity and intersectionalities present in our community, which we often see being neglected. As such, we invite proposals that address these themes, in addition to other themes related to Latinx communities and identities.

We invite students, faculty, professionals, practitioners, artists, and community members to submit proposals. We welcome individual or collective papers, panels, posters, workshops, creative work, and alternative modalities presentations.

PROPOSALS DUE DATE: JUNE 30TH, 2021
