Notes:

* FTES: Full-time Equivalence Student

**UG FTES are calculated using the total Undergraduate Student Credit Hours (SCH) resulting from student majors divided by 15.

***G FTES are calculated using the total Graduate SCH resulting from student majors divided by 12.

Course credits and the FTES generated are calculated at the Course Level (UG Lower, UG Upper, and Graduate) regardless of the level of the student enrolled in the course.

How to read this chart:

This chart gives the total number of credit hours generated by each college (shown in the first column under Total) and also indicates Student Credit Hours in major (as indicated the blue font) and service areas.

Course credits and the FTES generated are calculated at the Course Level (UG Lower, UG Upper, and Graduate) regardless of the level of the student enrolled in the course.

How to read this chart:

This chart gives the total number of credit hours generated by each college (shown in the first column under Total) and also indicates Student Credit Hours in major (as indicated the blue font) and service areas.

Notes:

* FTES: Full-time Equivalence Student

**UG FTES are calculated using the total Undergraduate Student Credit Hours (SCH) resulting from student majors divided by 15.

***G FTES are calculated using the total Graduate SCH resulting from student majors divided by 12.

Course credits and the FTES generated are calculated at the Course Level (UG Lower, UG Upper, and Graduate) regardless of the level of the student enrolled in the course.

How to read this chart:

This chart gives the total number of credit hours generated by each college (shown in the first column under Total) and also indicates SCH in major (as indicated the blue font) and service areas.

A Glimpse of Course Enrollment and FTES Taught by College/School

Notes:

* FTES: Full-time Equivalence Student

**UG FTES are calculated using the total Undergraduate Student Credit Hours (SCH) resulting from student majors divided by 15.

***G FTES are calculated using the total Graduate SCH resulting from student majors divided by 12.

Course credits and the FTES generated are calculated at the Course Level (UG Lower, UG Upper, and Graduate) regardless of the level of the student enrolled in the course.

How to read this chart:

This chart gives the total number of credit hours generated by each college (shown in the first column under Total) and also indicates SCH in major (as indicated the blue font) and service areas.

Notes:

* FTES: Full-time Equivalence Student

**UG FTES are calculated using the total Undergraduate Student Credit Hours (SCH) resulting from student majors divided by 15.

***G FTES are calculated using the total Graduate SCH resulting from student majors divided by 12.

Course credits and the FTES generated are calculated at the Course Level (UG Lower, UG Upper, and Graduate) regardless of the level of the student enrolled in the course.

How to read this chart:

This chart gives the total number of credit hours generated by each college (shown in the first column under Total) and also indicates SCH in major (as indicated the blue font) and service

A Glimpse of Course Enrollment and FTES Taught by College/School

Notes:

* FTES: Full-time Equivalence Student

**UG FTES are calculated using the total Undergraduate Student Credit Hours (SCH) resulting from student majors divided by 15.

***G FTES are calculated using the total Graduate SCH resulting from student majors divided by 12.

Course credits and the FTES generated are calculated at the Course Level (UG Lower, UG Upper, and Graduate) regardless of the level of the student enrolled in the course.

How to read this chart:

This chart gives the total number of credit hours generated by each college (shown in the first column under Total) and also indicates SCH in major (as indicated the blue font) and service

Notes:

* FTES: Full-time Equivalence Student

**UG FTES are calculated using the total Undergraduate Student Credit Hours (SCH) resulting from student majors divided by 15.

***G FTES are calculated using the total Graduate SCH resulting from student majors divided by 12.

Course credits and the FTES generated are calculated at the Course Level (UG Lower, UG Upper, and Graduate) regardless of the level of the student enrolled in the course.

How to read this chart:

This chart gives the total number of credit hours generated by each college (shown in the first column under Total) and also indicates SCH in major (as indicated the blue font) and service

Notes:

* FTES: Full-time Equivalence Student

**UG FTES are calculated using the total Undergraduate Student Credit Hours (SCH) resulting from student majors divided by 15.

***G FTES are calculated using the total Graduate SCH resulting from student majors divided by 12.

Course credits and the FTES generated are calculated at the Course Level (UG Lower, UG Upper, and Graduate) regardless of the level of the student enrolled in the course.

How to read this chart:

This chart gives the total number of credit hours generated by each college (shown in the first column under Total) and also indicates SCH in major (as indicated the blue font) and service
