## I. Summary of Student Demographic Data

Since 1995, the total number of high school graduates in Pennsylvania has increased every year, and is projected to continue growing through 2008 before beginning a steady decline thereafter. A projection of high school graduates by county through 2008 shows that the number of high school graduates is forecasted to increase in 35 of the state's 67 counties. Despite years of decreasing high school graduates before 1995, college enrollments increased during much of the period due to increased college participation rates, especially among women. Based on these projections, the System should continue to see slow enrollment growth for the next six years, but will need to increase the recruitment of non-traditional populations (including transfers) and/or increase retention to offset the loss of traditionally aged students.

For the entering class of Fall 2002, nearly 69,000 students applied to State System of Higher Education universities, 48,411 were accepted, and 19,059 first-time new students enrolled. More than 70 percent of students who applied were admitted. West Chester is the most selective university, admitting only 50% of applicants. Edinboro has the highest yield, with 49% of those admitted enrolling. In addition to new freshmen, 5,942 new transfers enrolled System-wide. Of those transfers, more than one in three came from a Pennsylvania community college.

Following a period of decline in the early and mid-1990s, System enrollments began to increase beginning fall 1997, and have grown 8.4% since 1996. Fall 2002 continued this trend, as enrollment increased by 3% to a record 101,546 and every university increased enrollments. Minority student enrollments also rose to 9,076 in 2002. More importantly, minority enrollments increased as a percent of total enrollments and are now at their highest point at 8.4% of total enrollments. Fall 2002 witnessed the largest number of Latino enrollments in State System history (1,441) an increase of 121 students over the record set in fall 2001. Actual minority enrollments are probably even higher, because 1,534 students reported no ethnicity or more than one. Four Pennsylvania counties—Allegheny, Lancaster, Chester, and Montgomery—contributed 20% of all enrollments and the top nine counties were responsible for 38% of enrollments.

Other salient enrollment characteristics are as follows: full-time students – 83.3%; female students – 59.4%; undergraduate students– 87.5%; resident students – 90.3%; non-traditional undergraduate students – 11.5% of the undergraduate population; and international students – 1.8%. During 2001-02, a total of 125,864 unique students attended System universities.

The number of out-of-state students had declined steadily in the 1990s and reached a low of 7,682 students in fall 1997. By fall 2002, non-resident enrollments totaled 9,883 students, a 29% increase. One factor responsible for this increase is the non-resident tuition policy, which allows institutions to set non-resident undergraduate tuition between 150% and 250% of resident tuition. Although the system average for residential students is 90.3%, percentages vary among

the institutions from a low of 75.5% at Mansfield to a high of 95.9% at Millersville.

More than three in four students (77.1%) receive financial aid to defray the costs of attending State System universities. During 2001-2002, over \$492 million was awarded. Of this total, 29% was in the form of grants, 60.1% loans, 6.1% student employment, and 4.7% scholarships. Nearly 31% of students received a Pennsylvania Higher Education Assistance Agency grant with an average award of \$1,922.

Resident undergraduate tuition has increased 48% since 1993-94 and is currently \$4,378 per year. Resident graduate tuition is \$5,254; non-resident graduate tuition is \$8,408 and non-resident undergraduate tuition is \$10,946. Student fees average \$1,153 for undergraduates and \$1,095 for graduate students. Cheyney has the lowest fees, and the range is from \$755 to \$1362 for undergraduates and \$480 to \$1578 for graduate students. Room and board fees have increased 121% since 1987 to \$4,762, which is still lower than any other sector in Pennsylvania. East Stroudsburg has the most affordable combined room and board fees at \$4290 per year. The average total annual cost of attending a State System university for an in-state, on-campus undergraduate student is \$10,293 (including tuition, fees, room and board). The System's tuition and fees place it 4<sup>th</sup> among state owned four-year colleges and universities (by state).

State System universities awarded 18,159 degrees in 2001-02. This total includes 201 associate degree recipients, 14,624 baccalaureate, 3,228 masters, and 106 doctorates. More than 62% of all graduates majored in one of the following five fields—Education, Business, Social Sciences, Health, and Psychology. Graduation rates for first-time, full-time, degree-seeking students compare favorably with those of peers. The 1996 cohort graduation rates for four, five, and six years are as follows: four years – 24.7%; five years – 47.7%; and six years – 52.1%. The corresponding rates for peer institutions were 18.5% for four years and 37.2% for five years (six-year peer data is not available yet).

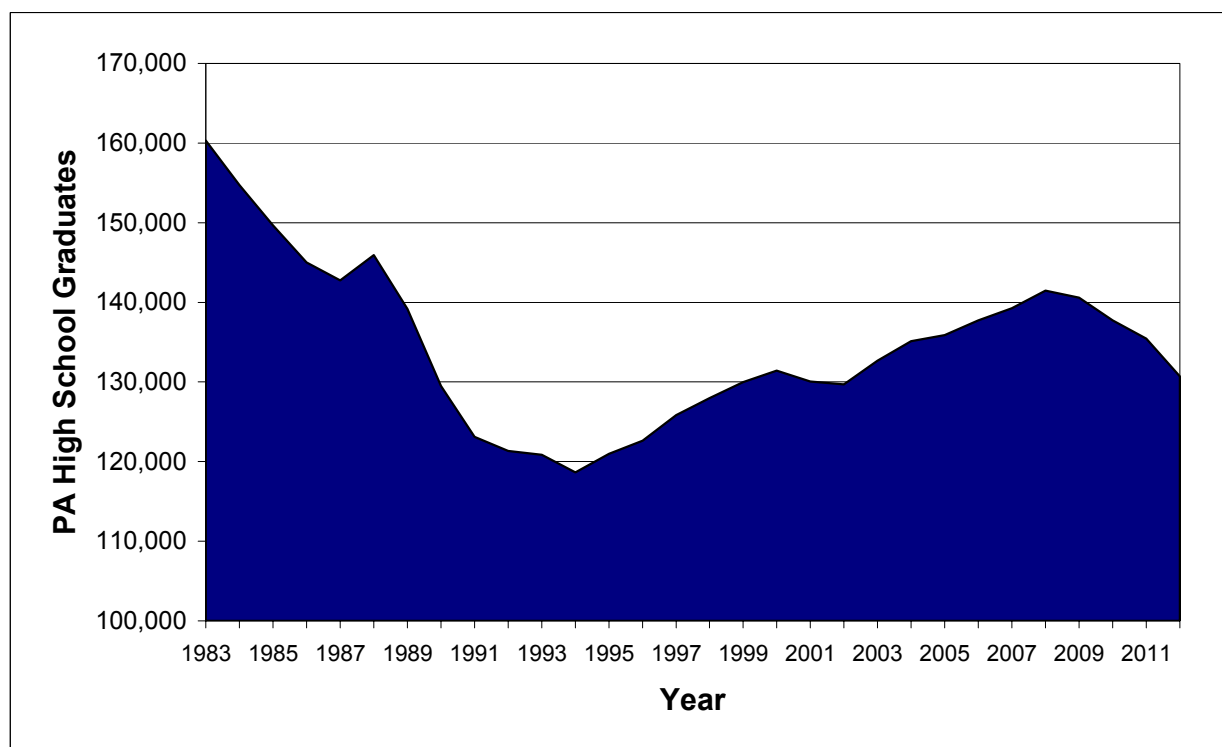

A total of 375,441 alumni are known to live in Pennsylvania. This represents 64% of the grand total of 586,388 alumni. The actual number of alumni who are Pennsylvania residents is likely to be somewhat higher, as almost 50,000 alumni do not have a current address on file in alumni offices.

## II. Summary of Safety, Productivity, and Instructional Resources

Campuses continue to be safe places to live, work and learn. Crime rates have declined by 8.9% for serious crimes, classified as Part I Offenses, over the past five years. The rates for misdemeanors, Part II Offenses, however, have increased since 1997 with vandalism, disorderly conduct, and liquor law violations the most common crimes reported.

Student-faculty ratios increased from 17.68 in 2000-01 to 18.17 in 2001-02. This ratio is still lower than in 1991-92 (18.29). California has the highest student/faculty ratio of 20.5. Average class size from 1994-95 to 2001-02 increased from 22 students to 24 students in undergraduate sections, with no change for master's sections (12). Class size in undergraduate sections is smaller than at the University of Pittsburgh or Penn State University and the master's sections are smaller than all state-related universities.

State System libraries contain nearly 7 million volumes and added another 119,955 during 2001-02. Nearly 563 full-time equivalent employees staff the libraries and more than \$31 million was spent on materials and salaries System-wide. Nearly one million people (including repeat users) used library materials during 2001-02.

Libraries are increasingly relying on electronic resources, from automated catalogs to on-line databases. The State System established the Keystone Library Network to interconnect all 14 universities with a shared library automation system and access to electronic resources. The libraries house 17,654,698 microforms.

All figures include summer, fall, and spring semesters.

One FTE instructional faculty = 24 teaching contract hours.

One FTE student = 30 credit hours for undergraduates, 24 for graduates.

Department chair release hours included in FTE instructional faculty.

FTE student enrollments are counted as of the official freeze date for each university.

### III. Summary of Budget and Finances

Total Educational and General (E&G) revenues for the State System are projected at \$1.070 billion for 2002-03. Since 1983-84, the general appropriation has increased 87% to \$439,181,000 for 2002-03, and System appropriation per FTE student has risen from \$3,003 to \$4,592. The appropriation decreased 3% from 2001-02 to 2002-03, the first such decline since 1992-93.

During that same period, E&G revenues per FTE student increased from \$4,770 to \$11,190, but costs per FTE student have risen to \$13,584 (as of 2001-02). Bloomsburg has the lowest cost per FTE student (\$11,701) while Cheyney has the highest cost (\$20,250). When cost is determined by credit hour, West Chester is lowest (\$146) and Cheyney is highest (\$200), compared to a System average of \$163.

State System universities have increased endowments and voluntary support dramatically in recent years. System Universities received a total of \$36.4 million in voluntary support during 2001-02. Indiana and Shippensburg have the two largest endowments, representing 18.7% and 11.8% of the \$145 million total respectively. Both fund raising and endowments have declined from their high in 2000-01, reflecting the poor performance of the economy and stock market.

#### IV. Summary of Facilities

The facilities infrastructure of the State System includes 862 buildings and nearly 25 million square feet of space. The 14 campuses, the Dixon University Center, and the McKeever Environmental Center are located on 4,698 acres. Residence halls have a capacity of 33,550 students, and 32,366 students lived in them during fall 2002. The replacement value of the physical plant is \$3.6 billion. Slippery Rock has the most buildings (95) and acreage (749), and Indiana the most square feet (3,017,719), the greatest residence hall capacity (3,856), and the highest replacement value (\$430 million).

Of the total number of buildings, 32% are in excellent condition, 21% good, 26% fair, and 18% poor. Three buildings are scheduled for termination and 26 will be demolished.

Presidential residences and the Chancellor's House at Dixon University Center have a combined 110,551 square feet and are worth \$16 million in value. These structures, which are used for official university business as well as providing living space for the Chancellor, presidents, and their families, range in age from 1885 at Edinboro to 1998 at Indiana.

## V. Summary of Human Resources

During 2002-2003, the State System employed 12,169 individuals (as of October 31, 2002, excluding wage employees). Of these, 11,078 of salaried employees were full-time. This number is just slightly higher than the full-time salaried employees count from fall 2001. Of all salaried employees, the Association of Professional State College and University Faculty union includes the largest number, representing 44.3% of total FTE employees, compared to 34.2% for the Association of Federal, State, County, and Municipal Employees and 11.9% for managers. Women comprise 49% of the full-time workforce. Total personnel expenditures for 2001-02 were nearly \$851 million, a 5.1% increase from 2000-01.

Within the full-time, 9 month faculty complement of 4,839 (excluding unit II), women constitute 43% of all faculty (2,072). The percentage of female faculty by rank is as follows: professor – 29.6%, associate – 40.4%, assistant – 51.7%, instructor – 57.7%. The rank distribution of the entire faculty (excluding unit II) is as follows: professor – 29.4%, associate – 26.8%, assistant – 32.6%, and instructor – 11.2%.

Faculty salaries have increased 83% since 1987. Faculty salaries at the 90<sup>th</sup> percentile or higher for all professors by their respective ranks, compared to faculty from 204 public institutions with the same Carnegie classification, including each of the 14 System universities (Source: American Association of University Professors). Average salaries by rank are as follows: professor – \$86,950, associate – \$69,831, assistant – \$56,112, instructor – \$41,889. Average salaries for senior administrators are as follows: presidents - \$163,868; provosts - \$139,199; vice presidents - \$127,422; and deans - \$114,282.

## VI. Summary of Diversity

The State System has made incremental progress in recruiting and enrolling students of color in recent years. Applications, acceptances, and enrollments of African-American and Latino students continue to increase, and the fall 2002 total enrollment of Latinos was the highest ever (1,441). As of fall 2002, African-Americans comprised 6.3% of the student body (6,383). Collectively, racial/ethnic minorities comprised 8.9% of all students (9,076). The Board of Governor scholars program has been expanded, and 1,693 students, the majority of whom are from a minority ethnic group, had some or all of their tuition waived during the 2002 Fall semester. These waivers are generally given for the entire year and are renewable.

The most successful of the social equity efforts for students are the partnership programs. The original program began in 1988 in Philadelphia. Participants enroll in summer programs at State System universities and earn credit for courses taken. These students are encouraged to apply for admission at State System universities or other colleges and universities. The program was replicated in Pittsburgh in 1995 and has been expanded to Erie, Harrisburg, and most recently Reading. The graduation rate of students in these programs is comparable to that of all students at System universities.

Social equity efforts have had mixed results with regard to personnel. Overall 12.4% of full-time employees are minority, with the greatest percentage among service/maintenance (18.2%) and the greatest number among faculty (612). Less than 10% of technical and skilled crafts full-time employees are non-white System-wide. With the exception of Cheyney, the largest percentage of people of color by Equal Employment Opportunity classification is as follows:

- Executive – 23.5%, Kutztown
- Faculty – 14.0%, Millersville
- Professional non-faculty – 16.7%, Kutztown
- Clerical – 17.3%, West Chester
- Technical – 21.7%, Kutztown
- Skilled Crafts – 10.1%, West Chester
- Service/Maintenance – 54.4%, West Chester
- Overall – 19.6%, West Chester

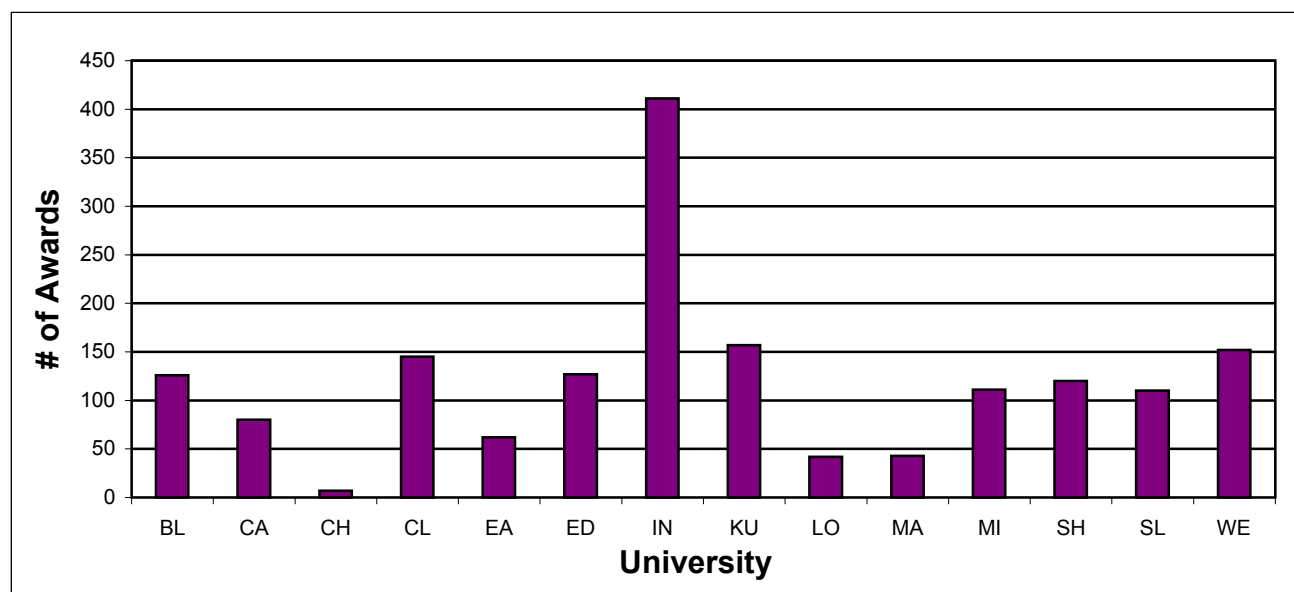

Ranked from high to low, West Chester, Millersville, East Stroudsburg, Kutztown, and California are the most diverse campuses, with more than 10% of all full-time employees who are people of color.
