

Experimenting Team-Building Strategies in an Innovative Nexus Learning Capstone Course

Gulbin Ozcan-Deniz, Ph.D, LEED AP BD+C, denizg@philau.edu

*Assistant Professor, College of Architecture and the Built Environment,
Philadelphia University, Philadelphia, PA*

Agenda

- ▶ Motivation and Primary Goals
 - ▶ Re-design Steps of Capstone
 - ▶ Sample Team-building Activities
 - ▶ Problem-solving in a Team
 - ▶ Student Assessment Results
 - ▶ Digital Tools for Collaboration
 - ▶ Conclusions
- 

Motivation and Primary Goals

Research
Motivation

the need for a
collaborative
capstone course in
many disciplines

Primary Goals

experiment with
team-building and
collaborative
working problems

stimulate peer and
team-based
learning

Motivation and Primary Goals

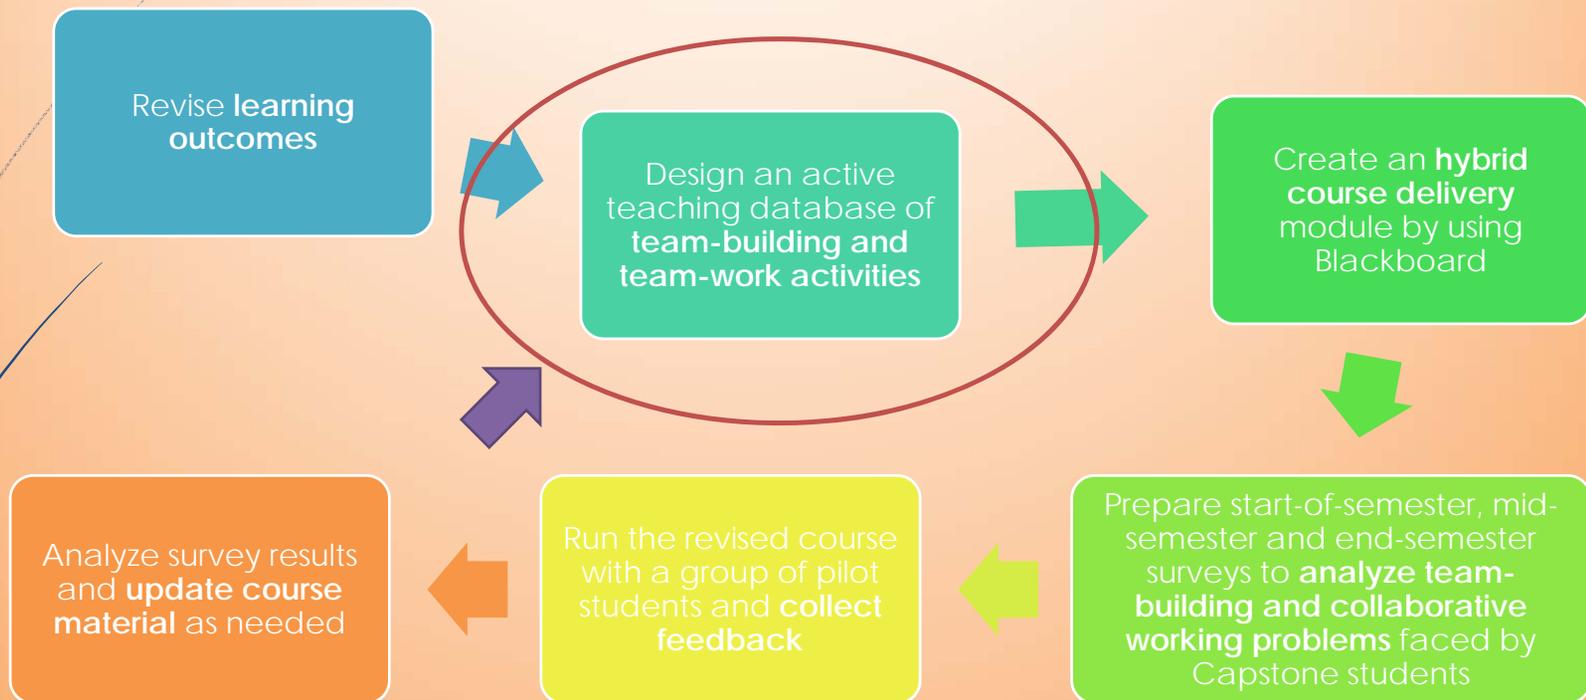

Specific Project Goals

To understand the **background, characteristics, processes, and dynamics** that contribute to team-working and team-success in construction

To determine which **digital tools** enables collaboration within teams

To determine the **impact of collaborative learning** on preparing and presenting an actual bid package to external parties

Re-design Steps of Capstone

Bloom's Taxonomy

create

Produce new or original work

Design, assemble, construct, conjecture, develop, formulate, author, investigate

evaluate

Justify a stand or decision

appraise, argue, defend, judge, select, support, value, critique, weigh

analyze

Draw connections among ideas

differentiate, organize, relate, compare, contrast, distinguish, examine, experiment, question, test

apply

Use information in new situations

execute, implement, solve, use, demonstrate, interpret, operate, schedule, sketch

understand

Explain ideas or concepts

classify, describe, discuss, explain, identify, locate, recognize, report, select, translate

remember

Recall facts and basic concepts

define, duplicate, list, memorize, repeat, state

Sample Team-building Activities

- ▶ 3-truths and a lie

- ▶ Which team player style are you?

Which team player style are you?

Contributor

This member gets the team to focus on the immediate task.

Collaborator

This team player emphasizes the overall purpose of the team.

Communicator

This member encourages positive interpersonal relations and group processes.

Challenger

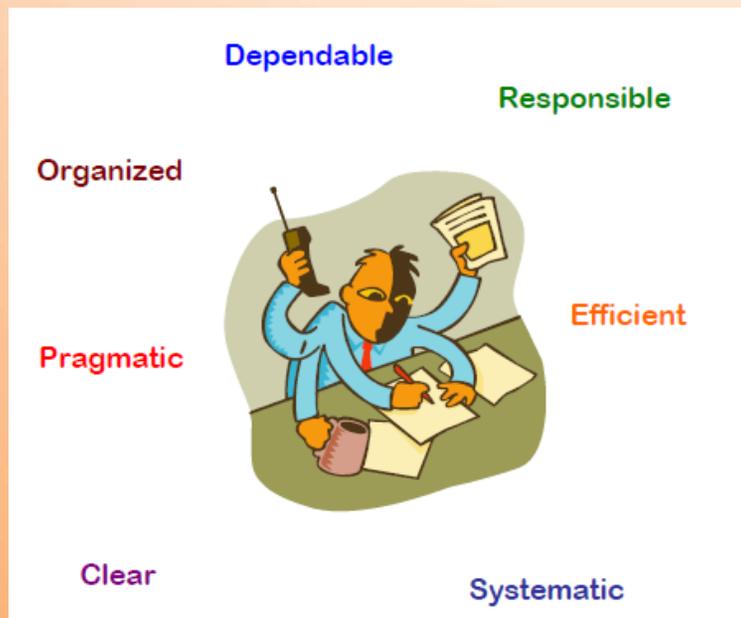

This style asks the tough questions and pushes the team to take reasonable risks.

Which team player style are you?

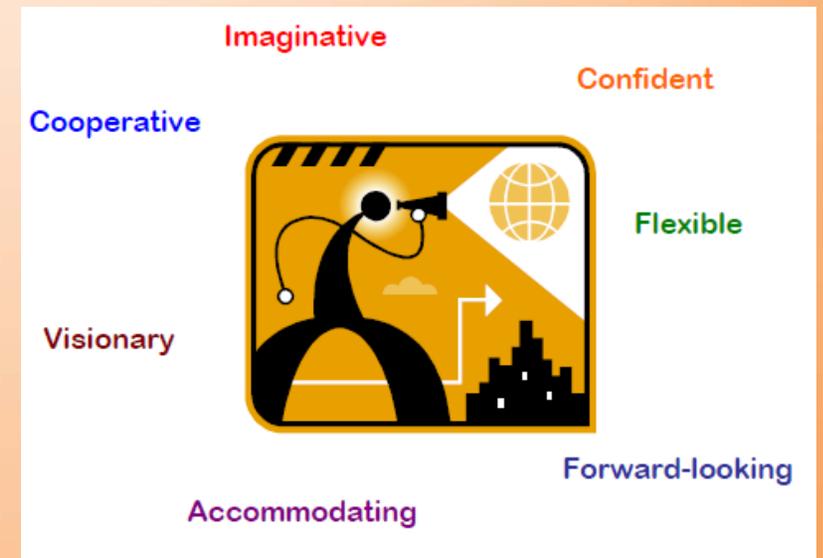

Which team player style are you?

Contributor

Collaborator

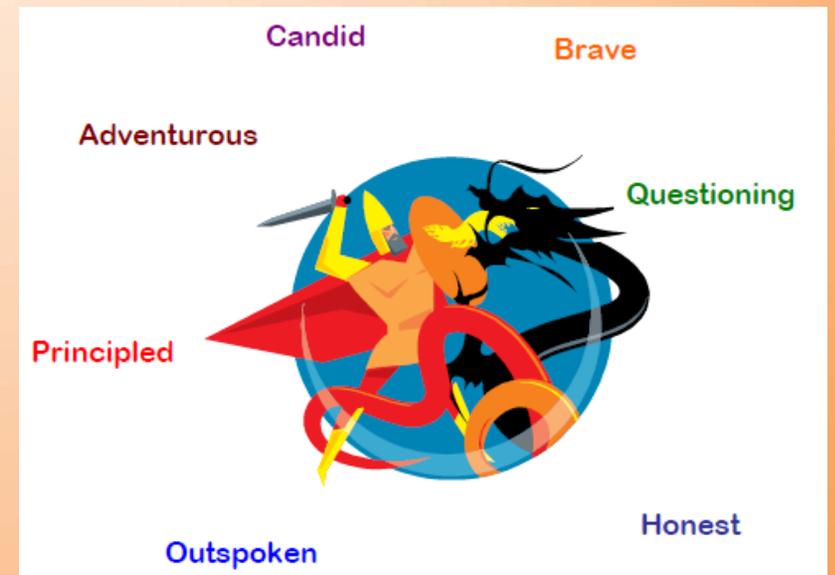

Which team player style are you?

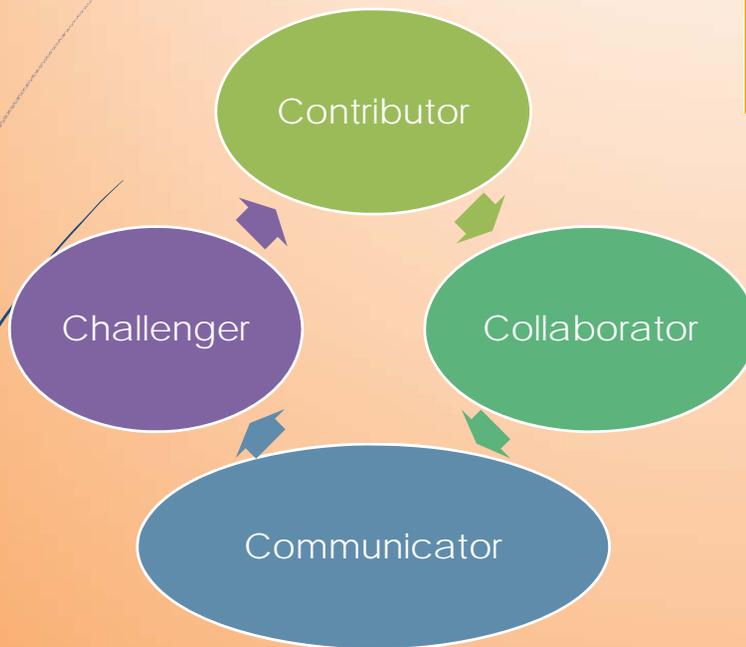

Communicator

Challenger

Equal Distribution vs Too Much of...

... contributors,
it may be data-bound, shortsighted, perfectionist, and may have trouble completing the whole task.

... collaborators,
it tends to become overcommitted, too global, and overly ambitious, and it does not know when to stop.

... communicators,
it focuses on the team processes and may set these as an end in itself, with the project goals taking second place.

... challengers,
it spends a great deal of time in non-constructive conflict, constantly questioning the goals and mission, and finds it difficult to complete the project tasks.

Problem-solving in a Team

- Who is who in the team?
- Create a responsibility chart

Tools

- Brainstorming
- Nominal Group Technique

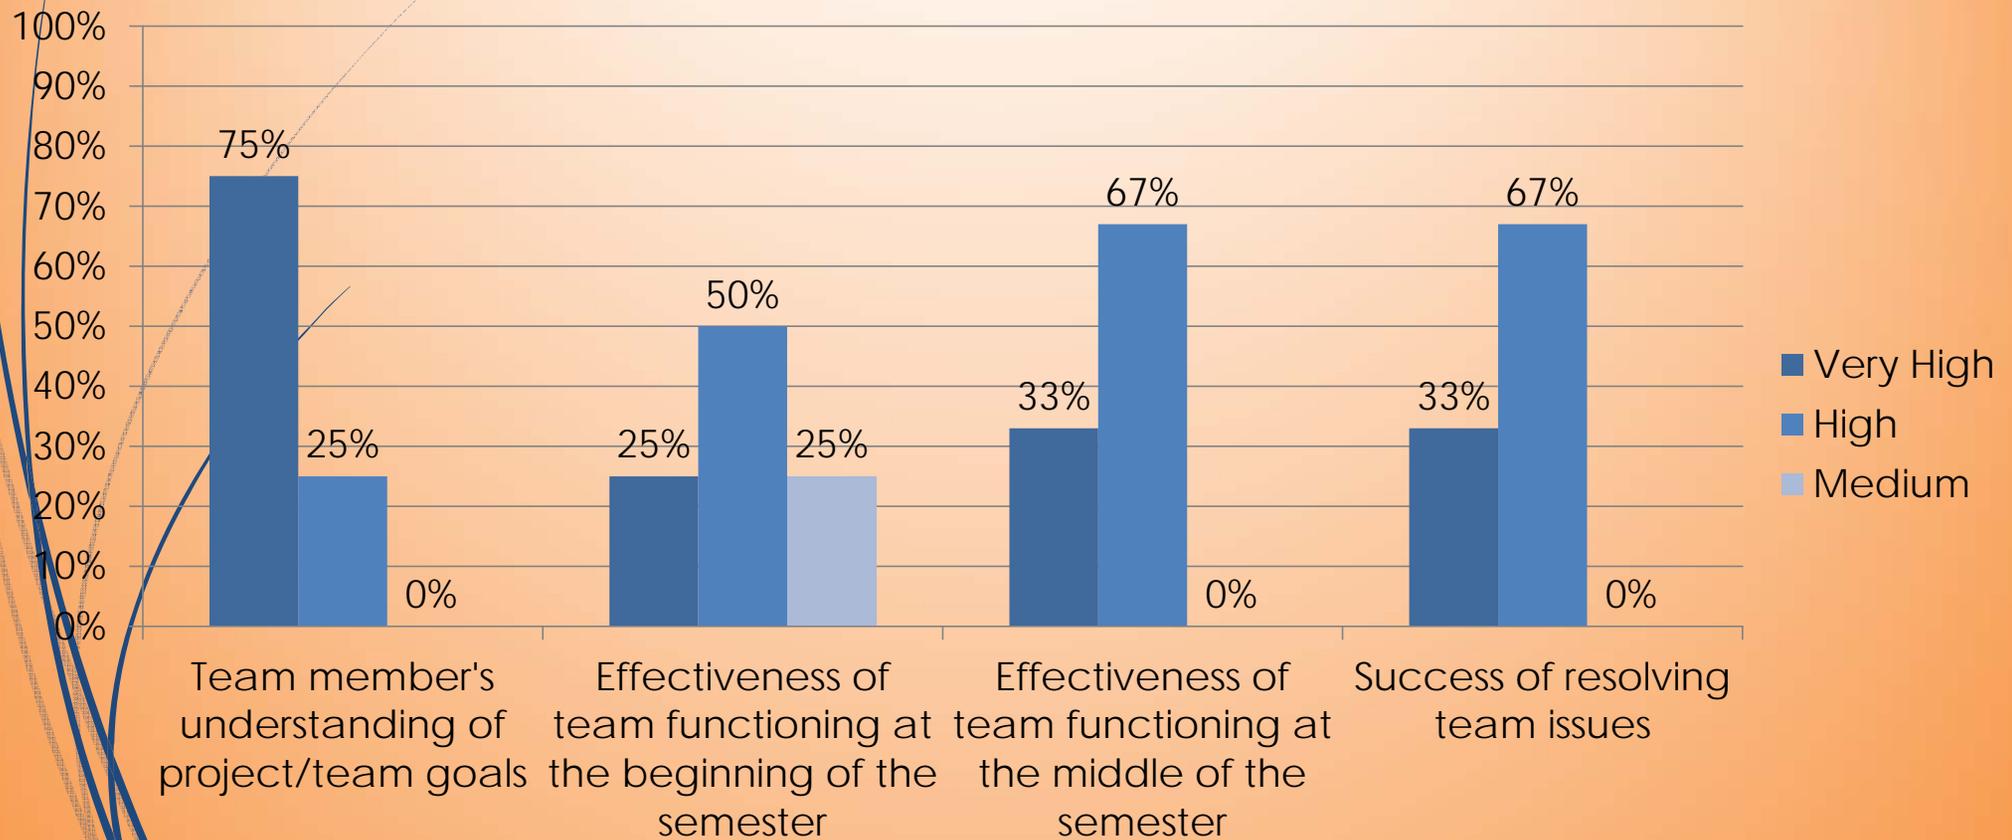

Legend															
	Marketing/Business Development	Strategic Planning for the Firm	Project Management	Schedule Preparation	Earned Value Analysis	Cash Flow Analysis	Risk Management	Constructability Studies	Value Engineering	Training	Expert Testimony	Management Consulting	Quality Control/Quality Assurance	Website Maintenance/Updating	Proposal Preparation
■ Primary Responsibility															
□ Secondary Responsibility															
Principal	■	■	■	■	■	■	■	■	■	■	■	■	■		■
Sr. Consultant	□	■	■	■	■	■	■	■	■	□	■	□	■		■
Scheduler/Cost Engineer	□	■	■	■	■	■		□	■	□			■	□	□
Scheduler/Cost Engineer	□	■	■	■	■	■		□	■	□			■	□	□

Student Assessment Results

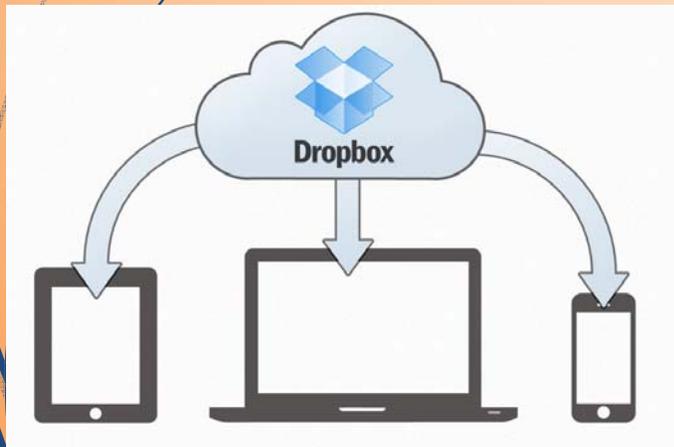

- ▶ As an essential part of team-building, the students are asked of their individual opinions on:
 - ▶ understanding project/team goals
 - ▶ effectiveness of the team throughout the semester
 - ▶ resolving team issues successfully

Student Assessment Results

Digital Tools for Collaboration

Conclusions

- ▶ Based on student feedback, hybrid course delivery and the team-based activities were found very efficient.
- ▶ Team-work should be an essential part of a capstone course.
- ▶ Survey results showed that effectiveness of team working had improved throughout the semester due to in-class team activities.
- ▶ The results revealed that students' knowledge on preparing and presenting the final project had significantly increased by integrating team-work.
- ▶ The new approach of capstone is planned to be implemented in future course offerings.
