

VideoAnt for Students

VideoAnt is a web-based video annotation tool that allows mobile and desktop devices to add comments to videos.

1. Sign into VideoAnt

- Go to <https://ant.umn.edu/>
- Sign in using your Gmail account

2. Record Zoom Meeting

- From the Zoom app:
 - Select Sign In > Sign in with SSO > Enter **wcupa** for domain > Continue
 - Login with your WCU student credentials (@wcupa.edu)
 - Select **New Meeting**
- Once the meeting has been launched:
 - Select the [...] (More) option from the Zoom toolbar
 - Select **Record to the Cloud**
 - Select Stop Recording or End Meeting to stop recording
 - Once the meeting has ended your recorded video will begin to upload to your Zoom Cloud
- Accessing Zoom meeting recording:
 - Login to your WCU Zoom account
 - Select **Recordings** on the toolbar on the left-hand side
 - Find recording video and select **Share**
 - Set privacy settings to anyone with the link

3. Upload Video to YouTube

- Go to <https://www.youtube.com/>
- Select video symbol on the top right > Upload Video > Select file to upload
- Under Visibility, select **Private** > **Share Privately**
- Under Invitees, type in the Gmail you would like to share with. Invitees must sign into YouTube using their Google account to view the private video.

4. Add Video and Commentary in VideoAnt

- Return to Video Ant at <https://ant.umn.edu>
- Select tab labeled **New Ant**
- Copy and paste YouTube video URL into text box
- Select the comment box symbol to add annotations throughout your video
- On the right-hand side of the video, fill out the textbox and select **Save**

5. To Share Video in VideoAnt

- Choose the settings gear symbol under the video > Scroll down to **Share** > **Shared With** > Next to **Public**, select the dropdown and choose **Private**.
- Under **Add Users**, type in the same email from step 3 above. Gmails entered in Step 3 above must be the same emails entered here.
- Select **Annotate** in the drop-down box to the right.
