Ellie Brown: ebrown@wcupa.edu

There is no shortage of information about racism and related forms of oppression like xenophobia, genocide, antisemitism, and the global climate emergency.

United to End Racism (UER) aims to hold space for members of our community to process thoughts and emotions in relation to various forms of oppression, with a goal of building solidarity and better aligning our behaviors to zestfully face the challenge of bringing about a more just world .

Brief introductions of participants and guidelines will be followed by holding space for one another to share and process thoughts and emotions related to racism, xenophobia, antisemitism, war, genocide, the climate emergency, sustainability, our shared humanity, and goals of human flourishing.
