(J)

Advising Spring 2019 for current students

Grade and General Education Requirement Information

BS in Nutrition: Dietetics Concentration

NTD GRADE REQUIREMENTS

- A "C" or better grade is required in all NTD and science courses and in statistics.
- If any core or cognate courses have prerequisites, the minimum grade requirements for those prerequisites must be met before the core or cognate course can be taken.
- Transfer courses need to meet these grade requirements in order to transfer to WCU.

~All grade requirements in the dietetics and science courses must be met in order to graduate~

GENERAL EDUCATION REQUIREMENTS

Covered by our major (NTD) requirements

- 2 Science courses (these are met by the program)
- 2 Behavioral and Social Science courses (satisfied by SOC200 & PSY100 in program)
- 1 Mathematics course (satisfied by program requirement of Statistics MAT121)
- 1 "J" course = Diverse Communities (NTD200 is a "J" course)
- 1 "W" course (Writing Emphasis) (NTD409 is a "W" course)

Not covered by our major (NTD) requirements

- TWO ENGLISH COMPOSITION courses: WRT120 plus one of the following: 200, 204, 205, 206, 208, or 220.
- TWO HUMANITIES courses (Literature/Comparative Lit., History or Philosophy) – these two must be from 2 different categories. Must be an approved Gen Ed course – see link for approved Gen Ed courses.
- 1 ART course (Art, film/cinema, dance, music, photography, or theater). Must be an approved Gen Ed course – see link.
- <http://catalog.wcupa.edu/undergraduate/general-education-requirements/approved-gen-ed-course-list/>
- ONE COMMUNICATIONS course - either SPK208 or SPK230 [or transferred credit "SPK199"]
- Electives (21 credits) – 18 credits of 'free' electives and 3 credits of NTD electives. These courses CAN be transferred from another institution
- 2 more "W" Writing Emphasis courses (Note: These are courses which place an extra emphasis on writing assignments, they are not English composition [WRT] courses.) A total of 3 writing emphasis courses are required in all, but NTD409 counts as one of them, so you would only need 2 additional courses.

If you have transferred to WCU with 40-70 credits, you would only need 2 "W" courses in all (one of which is covered by NTD409). If you transferred in with >70 credits, you would only need 1 "W" course, which is covered by NTD409 (so you would not need to take any additional "W" courses). Courses designated "W" in the course schedule booklets may be taken at any time during your program. They may be any subject, and you can take a "W" course that is also an Art, or Humanities, or "I" course, to combine these requirements. It can also be one of your electives.

NOTES:

- J & W courses cannot be transferred from another institution, but I courses can be transferred from another institution.
- BIO 110 can substitute for BIO 100, BIO 214 can substitute for BIO 204; but CHE231 CANNOT be used in place of CHE 230
- Apply online for graduation no later than the end of the junior year or when 90 credits have been earned.
