

Unionville Chadds Ford School District in Kennett SQ, PA has paid food service opportunities for nutrition and dietetics students.

We have a number of spaces open for student interns in our cafeterias. Here, students will have the opportunity to gain hands-on food service experience, learn about the National School Lunch Program, gain information and skills applicable to the ServSafe exam, help with Farm to School efforts such as student taste tests and education, and the best part... work with kids!

We have the ability to be extremely flexible with schedules; however, students will need to be available from **at least 10:30 am - 1:45 pm** on the days that they work. Days worked can range from 2 - 5/week depending on student schedules. Pay is \$15.48/hr. We ask that applicants commit to the entire semester; however, hours can be adjusted between winter session and spring semester if winter session work is desired.

Anyone with interest or questions can reach out to:
