

# D2L Homepage and Navigation Design Outline

---

## Target Audience:

Instructors who are interested in learning more about the homepage and navigation of D2L

## Prerequisites:

Basic knowledge of D2L

## Description:

In this session you will learn what a widget is, and how to use them to customize the "Course Home" area of your course. Attendees will learn how to embed tools, links to content, and even videos to be available to students as soon as they access the course.

## Course Includes:

- Widgets and homepages
  - Creating a custom widget
- Navigation bar
  - Adding and removing tools
  - Adding custom links
