

# Physics 330, Fall 2016, Course Schedule

**Instructor:** Dr. Matthew M. Waite, Merion 133, ext: 2573, [mwaite@wcupa.edu](mailto:mwaite@wcupa.edu)

The best way to contact me is via e-mail. But, be aware that **I will only read and respond to e-mails written in proper English, with correct grammar, spelling, and etiquette.** Do not send me any e-mails addressed to “hey” written in text-speak like you’re talking to your roommate about meeting up at Barnaby’s tonight... I might meet up for happy hour, but I won’t answer any questions about class or homework!

**Class Meeting:** Lecture M 10-10:50 (SSN 191); Lab T 9-11, 1-3 (MER 118)

**Office Hours:** MWF 9-9:45, MTWF 11-11:45, F 9-11:45 or by appointment.

**Course Web Page:** [D2L](#)

Course information can be found here throughout the semester. The syllabus, homework problem solutions, and other interesting stuff can be found here. Check it periodically!!

**Text:** Physics 330, (1st Ed.) by Matthew M. Waite (Kendell Hunt Publishing)

**Lab Text:** Physics 330 Lab Manual, by Matthew M. Waite (Dynamic Publishing)

<b><u>Grading:</u></b>	3 tests (15% each)	45%
	Cumulative Final	20%
	Homework	15%
	Laboratory	20%

## **Attendance:**

You are expected to attend every class period, period.

Excused absences are limited to University-Sanctioned Events (which follow the Excused Absence Policy for University-Sanctioned Events as described in the West Chester University Undergraduate Catalog), and absences due to serious illness or injury (verified by a practicing MD, you must provide me with a phone number), or the death of family members (also to be verified.)

Cell phones and texting are NOT ALLOWED during class. Cell phone use is disruptive to your classmates and to your instructors. Please turn off your phones or put them on **silence**, tuck them away in your bookbag, purse or European carry-all, and forget about them until after class. If I see anyone texting or using their cell phones during class, I will take 5 points off of the nearest exam grade (that’s 5 full points out of 100), and you will be considered “absent” for that day, since you are obviously not mentally present.

**Exams:**

There will be three exams over the course of the semester. I will try to arrange to administer these at alternative times during the week in order to allow for extra time, but this may prove to be difficult considering the number of students enrolled this semester.

**Laboratory:**

Just about each week, on Tuesday morning or afternoon, you will have a laboratory exercise. You will have 2 hours of class period during which you are to get started on the experiment. I will be present during this time to answer any questions you might have and to make sure you get started correctly. If you do not finish the exercise in the allotted time, you are to complete the lab exercise by the following class period. Again, you may come ask me questions during my office hours throughout the week, but you are EXPECTED to stay during your scheduled lab time. If you finish the lab early (which won't happen often) you may spend the rest of the time experimenting with the electronics simulation software. The schedule of labs is included on the schedule posted on D2L.

**University Policies:**

For questions regarding Academic Dishonesty, the No-Grade Policy, Sexual Harassment, or the Student Code of Conduct, students are encouraged to refer to their major department's handbook, the Undergraduate Course Catalogue, the Rams Eye View, or the University Web Site. Please understand that improper conduct in any of these areas will not be tolerated and may result in immediate ejection from the class.

**Disability:**

We at West Chester University wish to make accommodations for persons with disabilities. Please make your needs known by contacting the Office of Services for Students with Disabilities at ext. 3217 **and** me at the above listed contact information. Sufficient notice is needed in order to make the accommodations possible. The University and I desire to comply with the ADA of 1990.

**Miscellaneous:**

Please make any restroom visits before the class starts, or wait until it ends, the class is only 50 minutes. It is distracting to both the instructor as well as your fellow students when someone gets up and walks out of the classroom during lecture. Only in very rare circumstances will permanent physical damage be done by waiting a few more minutes for class to end... In fact, many doctors claim that waiting up to 2-3 hours is no problem (except for a bit of discomfort) at all. If I go off on a tangent and babble on and on for 2-3 hours, I'll let you get up and take a break... promise.

**Schedule:** (See attached page, or page on D2L)
