

Center for Civic Engagement & Social Impact

Service-Learning is...

- a teaching method.
- includes forms of engagement designed to address a community need or issue of public concern.
- enhances curricular goals and meets learning outcomes.
- includes critical, reflective thinking.
- develops students sense of civic responsibility and commitment to the community.

Examples of Service-Learning Courses

POLITICAL SCIENCE

PSC 356: US Public Policy

- through partnerships with numerous community agencies, students confront social stereotypes of the poor by working as tutors/mentors, providing/serving meals, and coordinating housing assistance

MARKETING

MKT 330: Customer Behavior

- students help community non-profit organizations conduct research to better understand consumers needs and develop marketing suggestions.

Faculty Support

- Faculty Consultations
